

SENATOR NEWBERRY DECLARED GUILTY

Of Buying Election To Defeat Ford, But Republicans Want To Keep Him In Senate

Newberry Goes To Federal Prison

(By Associated Press)
Grand Rapids, Mich., Mar. 20.—Senator Newberry, Frederick Cody and Paul King were sentenced to two years in Fort Leavenworth, and \$10,000 fine. Charles Floyd was sentenced to two years at Fort Leavenworth, \$5,000 fine, here today in the Newberry election conspiracy case.

(By Associated Press)
Grand Rapids, Mich., March 20.—Bulletin—Senator Truman H. Newberry was convicted of criminal conspiracy in the 1918 Senatorial campaign by a jury in federal court here today. The case has been on trial for eight weeks.

Sixteen of Newberry's co-defendants were also convicted, including John K. Newberry, the Senator's brother, Paul King, his campaign manager, Frederick Cody, of New York, his legislative agent, Charles Floyd, of Grand Rapids, President Templeton, of the Detroit Chamber of Commerce, Humilal Hopkins, publicity director, Frank Emery, office manager, Harry Turner, Detroit, E. B. Childon, of the republican national headquarters, Roger Andrews, of Menominee, Milton Oakman, of Detroit, William Mickel, of Oskosh, Richard Fletcher, state labor commissioner, Jas. McGregor, of Detroit, Fred Flint and George Ladd, Sturbridge, Mass.

All others were acquitted. The penalty is a fine of \$10,000 and two years or less imprisonment. Sentence will be passed late today.

They'll Need Him Badly
Washington, Mar. 20.—Republican Senators said today that the conviction of Newberry would not invalidate his Senate seat. Secretary Tumulty said there would be no statement from the President.

COLLEGE HILL GIRL
WIFE CLARK FARMER
Miss Ora May Brumback, an attractive young lady of the College Hill section, and Mr. Charles Hargard, of Clark county, went to Jellico, Tenn., where they were united in marriage Friday morning. Many friends will extend congratulations and good wishes. The bride is the daughter of Frank Brumback, while the groom is a prominent young Clark county farmer. They will make their home in Clark county on his place.

R. J. McKEE ILL
Mr. R. J. McKee is reported quite ill in the Good Samaritan Hospital, Cincinnati. His wife and sister, Miss Lydia McKee are with him. His numerous friends hope he will speedily recover.

FIRST CHRISTIAN CHURCH ANNOUNCEMENT
Dr. Homer W. Carpenter will return from Louisville and will occupy his pulpit in the 1st Christian church Sunday morning and evening at the usual hour.

Mrs. W. H. Finnie, of Greenfield, Tenn., who has been the guest of Mrs. Samuel Rice on Second street has returned to Lexington to continue her visit to her daughter, Mrs. Luther Land.

Mrs. Samuel Rice and daughter were shoppers in Lexington, Thursday.

Don't forget the public sale of Jas. M. Pond near Round Hill, on Wednesday, March 24, at 10 a. m. Bargains for everybody.

NOT HURST'S MEN'S FAULT
Reports that tools left by plumbers at the county jail were used by three prisoners to escape were erroneous, says Ben F. Hurst, who has been doing the plumbing work on the jail. Mr. Hurst says that he and his men were through at the jail several days before the men broke out. Other workmen are said to have been the ones who left the tools where the prisoners could get hold of them, and not Mr. Hurst's men.

SENATE AGAIN DEFEATS TREATY

Beckham and Stanley Split On Ratification Vote, Which Was 49 To 35.

Washington, March 20.—The treaty of Versailles failed of ratification for the fourth time last night and then the Senate voted to send it back to President Wilson with a notification that it had finally "refused to advise and consent of its ratification."

On the decisive roll call the vote was 49 for ratification to 35 against, the opposition numbering in its ranks 20 democrats who were unwilling to see the treaty go through with the republican reservations objected to by the President, and three democratic and 12 republican irreconcilables. Twenty-one democrats quit the President's lead and voted for ratification but the defection failed by seven votes of providing the two-thirds requisite to ratify.

The result was regarded everywhere in the capital as having put over into the political campaign for decision the long and bitter fight between the Chief Executive and the Senate majority. A move to reconsider the vote and try once more to ratify collapsed in its inception, leaders on both sides agreeing that further ratification efforts would be a waste of time as long as the Senate membership remains as it is.

The next step planned by the Senate majority is declaration of a state of peace to relieve the nation of the war status which the democrats maintain can be ended only by the treaty's ratification. A fight on the proposal will begin when the Senate reconvenes Monday.

The roll call on ratification came four months, almost to the hour after the failure of the three attempts at ratification, on November 19. On that occasion the greatest strength developed for ratification with the republican reservations was 41 votes, only seven democrats voting with the republicans in the affirmative. The vote against was 51, made up of 13 republicans and 38 democrats.

Senator Beckham, of Kentucky, voted to ratify the treaty with the reservations, while Senator Stanley voted against ratification.

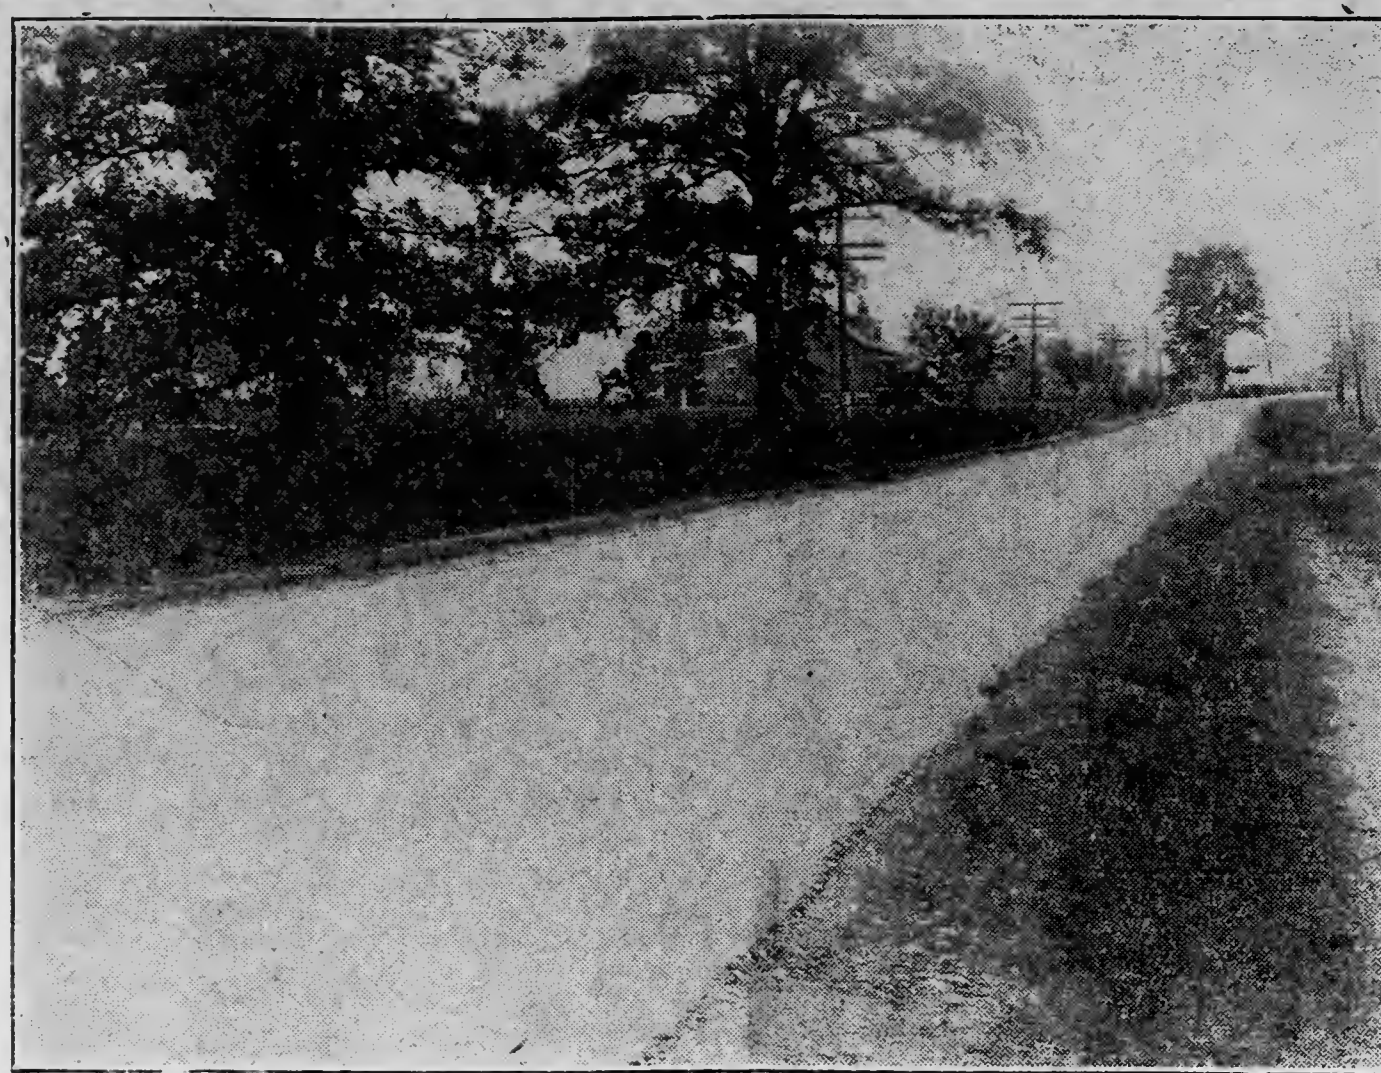

Treaty Back To President
Washington, March 20.—The treaty of Versailles was returned to President Wilson today by the Senate after it had failed of ratification, for the fourth time, last night. There is no intimation as to what the President will do with the treaty. White House officials said the usual mode of procedure will be to send it to the State Department for burial in the archives. The document which was delivered to the Senate by the President in person last July 10th was taken to the White House by George Sanderson, the clerk of the Senate.

FLOOD DANGER SUBSIDING
(By Associated Press)
Cincinnati, March 20.—A drop in temperature and advance storm conditions, will prevent serious flood in Cincinnati and the Ohio River district as a result of the present rise, the weather bureau said today. The crest of the rise is expected Sunday, with a stage of 55 feet in a few hours. It is inundated here but water is in the streets of Newport and in Covington, the water reached Second street.

AT LOUISVILLE, TOO
Louisville, March 20.—The Ohio river is a foot and half above flood here today and rising a tenth of a foot hourly. A few families in Shippingport and on the point have moved out. The weather bureau predicts the rise will continue slowly for several days. The river is now at flood from above Cincinnati to Evansville.

LINCOLN FARM SELLS AT \$210
At Danville Col. Ike Dunn sold for Thomas Metcalfe his farm in Lincoln county known as the R. H. Crow place to Mr. Bruce Tewmeyer, of Mercer county. The farm contains 336 acres and the price was \$210 an acre or a total of \$70,560. This is one of the finest farms in Lincoln county and is well improved.

TRY a nice baked fish for your Sunday dinner. We carry a full line of dressed poultry. Neff's Fish and Oyster House, phone 431

Eighteenth Street Road, Jefferson County, Ky., surfaced with Kentucky Rock Asphalt.

INTER-CHURCH IDEA EXPLAINED TO PASTORS

Great Religious Movement Gets Big Impetus At Meetings In City This Week

Dean E. C. McDougle, of Eastern Normal, is back from Louisville, where he attended the gathering of ministers, for discussion of the great Inter-Church Movement, which has taken such a strong hold upon the religious world. Dr. Homer Carpenter, and Miss Anne DeJarnette, of this city, were there also.

All but the most intense denominational partisans seem to be uniting and endeavoring the big movement. The Disciples of Christ, the Presbyterians U. S., the Presbyterians, U. S. A., the Methodist Protestants, the Methodist North and the Methodist South passed resolutions at denominational meetings of various churches in Louisville endorsing the Movement.

A joint resolution of the churches to that effect was presented to the State Pastors' Conference there. Rev. James I. Vance, Nashville, known as the "father" of the Inter-church World Movement, says: "People who say that we are trying to destroy denominational allegiance don't know what they are talking about. If possible the movement wants to strengthen this allegiance, but church competition must be wiped away so that the common task of the question as to evangelizing the world may be achieved."

In answer as to why the movement has been so criticized he pointed out that its bigness is the answer. "It may fail, but only if the churches refuse to co-operate, only if intense denominationalism declines to do teamwork."

He told how in December, 1918, with the aid of Charles H. Pratt, he started the movement, claiming it developed from the first in the most orderly manner. Dr. Vance declared that if the Protestant churches will work together their efficiency will be multiplied and their power quintupled, for "all have the same Bible, worship the same Savior and cherish a common hope."

In regard to the survey he said it was being made to ascertain facts, so that a saner and more efficient church programme may be effected, unoccupied fields reached and competition eliminated.

There are churches which want to save the world, but they want to save it in their own way," said Dr. Vance at the meeting of the state pastors. "They feel better satisfied when the soul goes home to God in the good old Baptist way or happy Methodist way or dignified Presbyterian way."

He pointed out that the Interchurch World Movement is a get-together movement, an efficiency movement, world movement, and asked: "Why should not churches achieve success without the sacrifice of their doctrinal beliefs as did the Welfare Drive where Jews, Protestants, Catholics worked for a common good. A church that prefers to walk alone will soon discover that its solitude is that of the graveyard."

In conclusion he said: "The object is a world brought to Christ, and never was there such a summons to men to forget their differences, pool their prayers and co-ordinate their forces."

GEORGE M. ROBERTS HEADS LEGION DRIVE

The state organization in the drive for Kentucky's American Legion fund has been completed with the appointment of district chairmen. These in turn will select county chairmen.

The drive will begin simultaneously in all parts of the state on March 29th and will continue through April 3, with the exception of Louisville, where the campaign will be completed in two days, March 30 and March 31.

The district chairmen who will serve under A. T. Hert, as State Chairman, are:

- First District—J. C. Utterback, Paducah.
- Second — James Pendleton, Owensboro.
- Third—J. L. Harmon, Bowling Green.
- Fourth—Judge J. R. Layman, Elizabethtown.
- Fifth—Frank E. Bueck, Louisville.
- Sixth—John J. Howe, Carrollton.
- Seventh—Henry T. Duncan, Lexington.
- Eighth—George A. McRoberts, Danville.
- Ninth—Robert H. Winn, Mt. Sterling.
- Tenth—F. W. Stowers, Pikeville.
- Eleventh—Hugh Asher, Pineville.

Posters and placards will be distributed from State Headquarters throughout the state. A small pamphlet will also be sent out, explaining briefly the scope and work of the Legion and the fact that the impending campaign will be the first opportunity afforded Kentucky's patriotic citizens to contribute to the support of the Legion, which "today stands as a bulwark against radicalism of a revolutionary character."

ROSS BILL VETOED

Frankfort, Ky., March 20.—Governor Morrow has vetoed the so-called Ross bill to increase salaries of all deputy county officers in Jefferson, which was pushed through the General Assembly by Sheriff Ross, Louisville, despite formidable opposition of County Commissioners.

The Governor issued a statement in which he declared that he did not consider it just to raise Jefferson county officers only, while the countless other officers in the state were not so favored and that the state's finances are not such as to permit a general increase.

NAME EXPERIENCED MAN

Frankfort, Ky., March 20.—Joseph P. Byers, Louisville, has been appointed Commissioner of Public Institutions by the State Board of Charities and Corrections, and assumed his duties this evening. Mr. Byers, who is 51 years old, has had experience in responsible positions in institutional work in five states as well as in the national field of charities and corrections, and has been engaged in that work since 1888.

NUTCOCOA Butter at NEFF'S Fish and Oyster House, Phone 431, First street.

WHY KENTUCKY ROCK ASPHALT IS BEST

For Street Paving Told By Rodman Wiley, Former State Road Commissioner

Kentucky Rock Asphalt is a natural product composed of about 92 1-2 per cent silica sand and 7 1-2 per cent bitumen. It is quarried, crushed and pulverized to about the consistency of coarse meal; it is not heated and no material is added. It is transported by water from the plant to Bowling Green, Ky., the nearest available railroad station, unloaded from the barges into open top rail road cars, or stored ready for shipment. Therefore it is possible at all times to make prompt shipments.

In building a street with a concrete base—leave the surface of the concrete rough, paint coat and apply the **Kentucky Rock Asphalt** or spread one layer crushed stone over the green concrete base and the stone about 1-2 in. imbedded in the concrete affords excellent anchorage, then spread the **Kentucky Rock Asphalt**.

The material can be rolled with a tandem roller or a roller of the macadam type. The aggregates of any type of pavement determine its wearing quality—contrast the irregular grains of pure silica sand which compose the aggregate of **Kentucky Rock Asphalt**, with the various aggregates that are used in the other types, and anyone will be convinced that **Kentucky Rock Asphalt** will outwear all other types of pavement.

Highway engineers contend that the following points should be taken into consideration in determining the type of pavement:

Cheapness	14 per cent
Durability	21 per cent
Easiness of Cleaning	15 per cent
Resistance of Traffic	15 per cent
Non-slipperiness	7 per cent
Ease of Maintenance	10 per cent
Favorableness to Travel	5 per cent
Sanitariness	13 per cent

Total 100 per cent
Kentucky Rock Asphalt more nearly satisfies all the above requirements than any other pavement, and is as near a 100 per cent **fool proof** type as it is possible to build. **Each point is Discussed to show why the material excels.**

CHEAPNESS
Generally speaking, **Kentucky Rock Asphalt** is the least expensive of all permanent types of pavement, because it is already mixed, requires no expensive plant, special tools, or expert labor. Is laid cold by the ordinary workman with ordinary tools. Is used just as it comes from the hand of nature.

DURABILITY
Kentucky Rock Asphalt never loses its life. Tests show that the material which has been down for as long as ten or fifteen years is practically as alive today as it was when laid. It has long since passed the experimental stage. The method of laying it has been standardized after years of careful study and much experimenting. Laid on both macadam and concrete foundations, it has been down for as long a period as ten

THE MARKETS
Cincinnati — Hogs generally steady; \$16.50; Chicago steady; strong; cattle steady.
Louisville, March 20.—Cattle 100; steady; hogs 1000 mostly steady; sheep 50 steady; all unchanged.

Fair tonight, and Sunday; warmer Sunday.

ALLIES MAY ADVANCE MEN INTO GERMANY

(By Associated Press)
London, March 20.—Bulletin—A Cologne dispatch today asserts that indications are that the Allies are preparing to advance their concentration of troops at Strassburg and Metz, further into Germany if the country does not quiet soon.

2,000 Killed To Date
London, March 20.—Two thousand persons have been killed to date in the fighting incident to the German revolutionary movement and disturbances, the past week, according to a Berlin estimate.

years without any maintenance, and some of the roads have been subject to severe traffic—a mixed traffic, composed of a narrow steel tired vehicles, horses and mules heavy shod, light and heavy automobile trucks, caterpillar tractors, traction engines and pleasure automobiles. In that time the pavement has shown very little wear, and today it is in excellent condition, having the appearance of the best sheet-asphalt pavement.

In 1890, 7,313 square yards of **Kentucky Rock Asphalt** was laid on a concrete base on Ninth avenue from High street to Neil avenue, Columbus, Ohio. The 1910 report of the City Engineer's office shows that for the year 1910—twenty years after the pavement was laid,—the cost of maintenance for that year was 46.00 and the cost of maintaining the same street in 1918 was \$145.08.

Extract from letter received by the author from Prof. Jos. N. Bradford, University Architect, Ohio State University, Columbus, Ohio, October 27th, 1919:

"About seven years ago we improved our main entrance to the Ohio State University grounds with a **Kentucky Rock Asphalt** driveway, 50 feet wide and 450 feet long. The rock asphalt was put on an eight inch coarse crushed stone base. The base was rolled once; the asphalt put on and rolled into the crushed stone, forming a perfectly smooth surface. Up to the present time the maintenance on this driveway, which is in very good condition, has not cost a penny. This roadway does not bleed, soften, roll or rut in the hottest weather of the summer."

The author recently returned from an inspection of the Nelson Avenue Experimental Road at Columbus, Ohio, where seventeen types were laid under the direction of the Ohio State Highway Department in 1909. The Department stipulated that each material concern furnish an expert to supervise the construction of the section built with is material. Today, after ten years of service, the **Kentucky Rock Asphalt** section is in excellent condition and no funds have been expended for maintenance. Any man inspecting the road will pronounce the **Kentucky Rock Asphalt** section the best of all types. A sample taken from the edge of the road showed 7.42 per cent bitumen. Tested by the Pittsburgh Testing Laboratory, October, 1919.

A record of the experiments on the Nelson Avenue Experimental Road, Columbus, Ohio, is as follows (see Bulletin No. 12, Ohio State Highway Department).

- Experiment—
 - 1—Glutin.
 - 2—Standard Macadam Asphalt binder.
 - 3—Pioneer Asphalt Cement.
 - 4—Tarvia, "X".
 - 5—Tarvia, "B".
 - 6—Liquid Asphalt.
 - 7—Ugite.
 - 8—Fairfield Asphaltic Cement.
 - 9—Asphaltolene.
 - 10—**Kentucky Rock Asphalt.**
 - 11—Carbo-Via.
 - 12—Concrete Macadam.
 - 13—Taroid.
 - 14—Petrolithic Pavement.
 - 15—Limestone Concrete.
 - 16—Gravel Concrete.
 - 17—Water-bound Macadam.
- Today, after ten years service. (Continued on 4th Page)**

CIVIL WAR LOOMS UP FOR GERMANY

Reds Reported To Have 100,000 Men At Essen—Berlin In Pandemonium

(By Associated Press)
Large sections of Germany are resounding to the rattle of machine gun and rifle fire in the civil war which is estimated to have cost 2,000 lives. The Rhineland industrial district appears the stronghold of ultra-extremists, which are reported to have captured Essen, the home of the Krupp plant, and the important industrial centers of Dusseldorf, Elberfeld and other towns in that region.

Essen Spartacans are reported to have 100,000 men with artillery and armored cars.

Berlin is reported still paralyzed by strikes. In Leipzig, the the Ebert forces appear to be regaining control after a bloody conflict. Kiel is reported quiet. The Ebert government is apparently maintaining its headquarters in Stuttgart.

Berlin Seethes With Excitement

Berlin, March 20, 2:40 p. m. via wireless—Since noon firing has occurred in various parts of the city. It is reported the security police are shooting down all officers of the Baltic troops remaining in the city. The wildest rumors are afloat. The inner city streets are seething with excited people.

Hun Strike Over

(By Associated Press)
Berlin, March 20.—Bulletin—It is announced here today that the general strike is ended.

MRS. DOUGLAS CLAY HAS HIM INDICTED

Paris, Ky., March 20.—As a sequel to the suit for divorce recently brought by Mrs. Jane Adams Clay, of Frankfort, against Douglas K. Clay, of Paris, the March grand jury indicted Mr. Clay for assault and battery based on an affidavit of his wife.

The suit for divorce was dismissed in the Bourbon circuit court. Judge Stout ruling that it should have been brought in the Franklin court.

The suit against Mr. Clay's mother, Mrs. Sallie Moran Clay, for \$100,000 brought by her daughter-in-law, who alleges alienation of her husband's affections, is still pending.

JUDGE GILBERT SHAKING HANDS HERE

Judge Ralph Gilbert, of Shelby county, a candidate for the democratic nomination for Congress in the 8th district, is in town this afternoon shaking hands with the voters. Judge Gilbert is a son of former Congressman Geo. G. Gilbert, who had many warm friends here. He has served as County Judge of Shelby and is one of the most prominent and eloquent attorneys at his bar. He is making a fine impression wherever he goes, and his friends say he is a sure winner.

Dr. T. N. Willis and son, Norman, of Louisville, are visiting Mr. and Mrs. S. W. DeJarnette. Dr. Willis is Mrs. DeJarnette's brother.

Political Announcements

The Daily Register is authorized to announce the following candidates for office, subject to the action of the Democratic party:

For Congress

RALPH GIBBERT, of Shelby county, FRANK RIPPY, of Anderson county, Chairman Cummings truly said:

in his talk to democrats at Louisville, that failure of the United States to ratify the peace treaty is mainly the cause of the unrest and turmoil in the world today. Just think of it, only two of the great nations of the world entitled to enter the League of Nations which have not done so—the United States and Venezuela. And now that the Senate has again failed to ratify the treaty, it will become the foot ball of politics. It will go before the

American people, and they will have the say. Perhaps it is really best after all that they should, even though our failure has cost so much in affairs of the world as well as our own. We've had a year and over of indecision and bickerings, and if it is to be that the great and united voice of the American people must speak to tell the outside world our will, then truly it will carry the more weight when the dictum does come. But, oh, how much trouble, and sorrow and turmoil could have been escaped if the American people had only listened to Wilson's appeal for a congress that would support him in the program, which one must admit, would have prevented so much of the troubles here and over the world today.

Cox or Hoover

Kentucky democrats are either for Gov. Cox, of Ohio, or Herbert Hoover for the presidential nomination, if expressions heard by the writer from party workers all over the state at Louisville the other day are an indication of the way the wind is blowing. A lot of "yellow dog" democrats are bitterly against Hoover. McClellan has some following, especially in the labor centers. Bryan has friends, but very few would want to see him nominated for the presidency again. He was entirely too much of a pacifist before the war when the Huns were insulting Americans on every sea and elsewhere. Friends of Gov. Cox are mighty strong for him, and argue that Kentucky should by all means instruct for her neighbor. Many, however, favor an uninstructed delegation, so that the leaders may take counsel at San Francisco and select the strongest man to face the situation that is now before us.

How Politics Affects 'Em

The "lady" delegate to the New York convention who remarked, "We had a hell of a time," simply shows signs of Harry Summers, how politics affects women, says Tom Underwood in the Hopkinsville New Era. He continues: "But does Mr. Summers recall his experience in addressing the Woman's Federation at Mammoth Cave? Beautiful speech he made, eloquent, poetic and all that. He couldn't resist, however, voicing his disapproval of suffrage. 'Woman's place is in the home, not the polls,' sezee, or words to that effect. 'She is the clinging vine; man's the sturdy oak. Nature has made her physically the weaker sex—' " "O, I don't know," thunderingly interrupted Miss Laura Clay, rising from her seat on the stage, and glowering at the speaker from her superior height and 50 extra pounds of solid flesh.

Judgment For \$5,000

A judgment for \$5,000 was given Lee Smitha in a suit against the Central Pigment Company in the Fayette circuit court. Smitha entered into a contract with the Pigment Company allowing them to mine barytes on his farm. They failed to fill the holes they made on his farm, according to their contract, and were sued by Mr. Smitha. Lexington Herald.

Mr. Smitha lived here a number of years ago and conducted a dry goods and millinery establishment on West Main street.

VICTIMS RESCUED

Dutch, Rumanians, 3; Serbian, 2; Judeo-Slav, 2; Czech, 1; Mexican, 1; unknown, 14. Total 13,709. No record is available of the number of brides returned to Europe.

CECIL WILL CASE UP

AGAIN AT DANVILLE

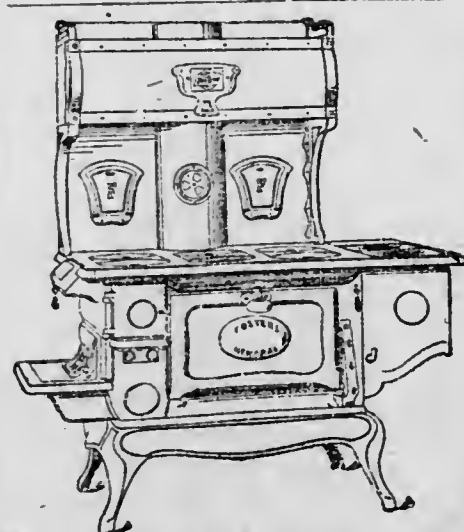

There is much interest by many relatives, friends and the public generally in the third trial of the Cecil will case in the Boyle circuit court, which begins March 29.

The suit is being brought by the three children of Granville Cecil, who died in 1915, leaving an estate in this county worth approximately \$250,000. The children of Mr. Cecil, who are J. G. Cecil, Mrs. Bessie Anheier and Mrs. Margaret Embry, are seeking to break the will and gain permanent control of the estate, which passes into the hands of the grandchildren at the death of the children.

The grandchildren on the other hand, among whom are Granville Cecil III, Mrs. Emily DeLong and Leonard DeLong, seek to keep the will as it is. The case was tried in June, 1916, and was immediately appealed. The Court of Appeals set the case aside because the testimony was not sufficient, and the case came to trial a second time in April, 1919. Lawyers from Lexington, Frankfort, Shelbyville and Danville are employed on both sides. It is said that each side has at least twelve lawyers in its employ.

MT. STERLING COURT DAY

At Mt. Sterling court day there was a very small run of cattle, possibly not over 500 head with prices about \$1.00 higher than last court. A few sales follow: Mark Moores, sold 9 high-class 600-lb. steers at 9 1-2 cents; Mike Wilson sold twelve extra-good 600-lb. steers at 10c and eight fat heifers at 9c; Mr. Jones sold fifteen heifers at 8 1-2c; Mr. Dalzell sold twenty-eight steers at 10c; sixteen more at 9c; and sixteen others at 9 1-2c; a cow and calf sold for \$100. There was a large run of mules of all kinds. Market was draggy and prices very high. Prices ranged from \$200 to \$325 per head.

Mrs. R. C. Boggs was hostess to a delicious luncheon Friday in honor of Miss Sara Wagers, who arrived from Huntington, West Virginia, Tuesday for a short stay with her sister, Mrs. H. B. Cosby. Other guests included: Mrs. S. J. McLaughlin, Mrs. Jack Wagers, Mrs. Murison Dunn and Mrs. Cosby.

Kidd—East

Miss Maude Kidd, of Berea, and Mr. Edward Rowland East, of Mill Spring were married in Judge Price's office this week. They left immediately after the ceremony for Cleveland, O., where they will make their home.

Heller—Embry

The engagement of Mr. Talton Embry, Jr., will be read with interest by relatives and friends here where he frequently visited his uncle, the late J. J. Embry. The Lexington Leader says:

Mr. James Shearard spent Friday in Winchester.

Miss Sara Monday is visiting friends in Frankfort.

Mr. J. P. Chenault has returned from Louisville.

Miss Sue Chenault is visiting friends in Lexington.

Mr. and Mrs. Jonah Wagers spent Thursday in Lexington.

Mrs. John Arnold left today for a visit to relatives in Louisville.

President T. J. Coates has been spending a few days in Frankfort.

Mr. H. C. Pieratt is in Mercer county this week on a business trip.

Mrs. W. D. Oldham is the guest of her son, Col. R. C. Oldham in Winchester.

Mr. Walter Parsons has returned to New York, after a visit to relatives here.

Mr. Everett Witt is here from Cynthiana for a few days visit to his family.

Mrs. Lyman Parish is visiting her daughter, Mrs. Gilbert Grinstead, in Winchester.

Mr. R. B. Terrill and Judge W. R. Shackelford are spending a few days at Mt. Jackson.

Miss Maggie Crosswait, of Harrison county, is taking a teachers' training course at the Normal.

Misses Alice Metcalf and Nellie Wilson Hill are in Cincinnati for Grand Opera this week.

Dr. E. C. McDougall returned from Louisville Friday where he attended the Inter-church Movement.

Miss Mary Louise Deatherage was in Winchester Wednesday evening to attend the St. Patrick's dance.

Mrs. Edgar Scrivner and Bile daughters, of Berea, were visiting the former's sister, Mrs. Dick Dunn this week.

Miss Nancy Boudinot, who has charge of a school near Frankfort, is with friends at Sullivan Hall this week for a visit.

Mr. Crit Frazier has returned from Houston, Texas, and friends will be sorry to know he is confined to his room by illness.

Mr. and Mrs. A. R. Denny entertained very informally at dinner Friday evening in honor of Mr. and Mrs. Overton Barber.

Miss Lillie Combs, of Winchester was called to the bedside of her brother, Mr. Hazlan Combs, and family who are very ill with flu.

Mr. and Mrs. Tom Vaughn have returned to Irvine after a few days stay with the former's mother, Mrs. T. C. Vaughn on Broadway.

Rev. J. P. Tupin, of Estill county, was with friends in Richmond Thursday. He also visited friends in Berea before returning home.

Mr. and Mrs. G. T. Grinstead, of Winchester, are out again after a three weeks illness of flu, their many friends will be glad to know.

Mr. Embry made his home in Cincinnati with his late uncle, from his boyhood, but has been much in Lexington, where he is very popular.

The little sons of Mr. and Mrs. W. E. Luxon have been quite ill this week with a very bad form of "flu". They are reported improving today.

Messrs. William Burnard, Roder Terrill, Oscar Stanifer and Leslie Pizer were in Winchester Wednesday evening to attend the St. Patrick's dance.

Mrs. Nannie Ballard was called from Lexington by the serious illness of her son, John W. Ballard, who is in Berea hospital with typhoid fever.

Mr. and Mrs. J. D. Chenault have returned from New Orleans, where they visited Mr. and Mrs. William Woolward, who are spending the winter there.

Mr. and Mrs. Wilson Tate will leave Monday for Orlando, Florida, to spend several weeks. They were called home by illness in the family of their daughter, Mrs. H. de B. Forbes.

Since the death of his uncle he has taken a position in Cleveland with a new branch of the commission firm of Green and Embry, and he and his bride will make their home in that city.

Deaconess Emily Olmstead, Mrs. W. A. J. Suit, Mrs. E. H. Rybac, Mrs. E. M. Stivers, and Mrs. W. A. Langford have returned from Cynthiana where they went to attend the meeting of the State Missionary board.

Mr. Talton Henry Embry, son of Mrs. Nannie Jewell Embry, and brother of Mrs. Embry Goodwin, of this city, is to be married to Miss Marion Louise Heller, the only child of Mr. and Mrs. Wm. H. Heller, of New York. The date for the ceremony has not yet been selected.

Miss Heller is a beautiful and accomplished young woman, a graduate of Miss Spence's school in New York and a prominent war worker of the metropolis. The marriage will be the result of a romance beginning when she and her mother, as members of a Red Cross committee, met wounded

ANNOUNCEMENT

of the

State Bank & Trust Co.

This bank, through its membership in the Federal Reserve Bank of Cleveland, has been appointed a special agent of the U. S. Treasury Department to furnish the people of Madison county, permanent Liberty Loan Bonds in exchange for temporary bonds which they now hold.

To save you the trouble and expense of sending your bonds to Washington or Cleveland for exchange, you will be able to make the exchange right here over our counter.

We have ordered \$50,000 in permanent bonds of the THIRD Liberty Loan, to begin with and additional sums in bonds of the other issues will be secured by us, from time to time, until all the temporary bonds held in our county may be exchanged for permanent bonds.

As soon as these bonds have been received by us notice will be given in this space so that you may bring in your temporary bonds and exchange them here for permanent bonds of the same issue.

We desire to render this service to the people of our county who by their good will and patronage have made this bank one of the big, strong institutions of our state. You will always find this bank giving up to the minute service in all financial matters.

Scott Street, Covington, Ky., surfaced with Kentucky Rock Asphalt

WHY KENTUCKY ROCK ASPHALT IS BEST

(Continued from 1st page)
the Kentucky Rock Asphalt Company is the only concern that furnished a material for that road that points with pride to the section of road built with its material.

The Eighteenth street road out of Louisville leading to Camp Henry Knox, is Kentucky Rock Asphalt for about 7 1-2 miles. It has been about for a number of years and carries a heavy mixed traffic, and during the period of the war withstood from 4,000 to 5,000 vehicles per day, mostly army trucks, and today it is perfect. The road is surfaced only for a width of 16 feet; entirely too narrow for such heavy traffic, nevertheless.

On December 6, 1919, Mr. Merrill Drane, county engineer of Jefferson county, Ky., in a letter to the author states that the cost of maintaining the pavement proper for the year 1919, has been 66 2-3 dollars per mile, and further states: "If the road had been constructed with Kentucky Rock Asphalt 20 feet wide the maintenance cost of the same would be less than \$25.00 per mile per year."

Extract from letter written to the author by Major W. M. Radcliffe, Constructing Quartermaster, Camp Henry Knox, October 8, 1919, regarding the Eighteenth street road:

"I have been interested in the road and have watched it closely during this time and have been unable to see any appreciable wear. I am fully convinced it is capable of standing the heaviest of traffic."

Many other roads and streets could be cited, as the material has been used in many states.

EASINESS OF CLEANING
While it is not generally customary to clean country roads,

DR. BURKHART

Wants you to write him today for a treatment of Dr. Burkhardt's Vegetable Compound. Pay for same when cured of Liver, Kidney, Stomach Trouble, Constipation, Catarrh, Rheumatism. Don't miss this grandest of remedies and wonderful preventative for Grip, Flu. Address: 621 Main St., Cincinnati, O. For sale at all drug stores. Weekly treatment 20c—Adv.

FOR SALE

On account of moving from Richmond I will offer our home on Main street for sale; an 8 room house with bath, electric lights, water and gas, and a small room on porch; all in good repair with lot 160 feet by 342 deep, with garage, stable, corn crib, servant house, coal house, smoke house and hen house with good concrete cellar. Young fruit trees and good size building lot on each side of house can be sold off if desired. Everlasting stone wall in front; front drive.

It is one of the best homes in the town.
Can grow from \$600 to \$1,000 tobacco each year on place.
It will pay any one who is thinking of buying a home to come look at this place before buying. Can give possession May 1st, and possibly earlier.

Will sell either or all of above property privately. Not selling for a speculation but leaving the city.

Everett Witt
RICHMOND, KENTUCKY

FAVORABLENESS TO TRAVEL

Kentucky Rock Asphalt is pleasing to the eye, because of its color—there is no glare. It is easy on vehicles, because it is resilient. Always remains smooth; never cracks; rolls, bleeds or buckles and is not affected by changes in climate; serves as well in Canada as in Florida.

In regard to a section laid at Bowling Green, Ky., Circular No. 89, Office of Public Roads, Washington, D. C., reads, in part, as follows:

"It is resistant to deformation under a load, yet sufficiently plastic to break the severity of the blow from a horse's hoof, and thus in a measure avoid the harmful effects of a rigid pavement on animals."

SANITARINESS

It is a perfectly sanitary pavement. Not made up of any materials that will decay, it is waterproof, noiseless and dustless.

The material is absolutely uniform. It is tested before it goes to the crushers and again tested after leaving the pulverizers and the bitumen content runs between 7 and 8 per cent, usually around 7 1-2 per cent, which is the percentage of bitumen that experience has shown to be the amount required. The company absolutely guarantees the uniformity of the product.

It is one of Kentucky's Natural Resources of which she has a right to be justly proud. The company is owned, operated and controlled by Kentuckians. Nature has seen to it that each and with bitumen. It is not possible to artificially prepare a mixture that is as good and as cheap as Kentucky Rock Asphalt.

The question is sometimes raised: **Why Pay Freight on Sand?** The answer is that the public is looking for a finished product. It makes no difference whether the pavement is all shipped mixed at one time, or sand and stone shipped from one place and the bituminous material from another. When one considers all the points that should be considered in selecting a type of pavement—cheapness, durability, easiness of cleaning, resistance to traffic, non-slipperiness, ease of maintenance, favorableness to travel, and sanitarians, it will be found that a Kentucky Rock Asphalt pavement is superior to all others and usually cheaper.

At Parksville, the L. & N. Railroad is having a survey made which will eliminate the Pittman grade between this place and Junction City. The new line cuts through the yards of W. C. White, J. T. Underwood and A. J. Adams, threatening complications.

Without warning, the 60-foot smoke stack of the ice company at Paducah fell before the wind. Lex Davis and Ely Johnson, in a tobacco wagon in the line of fall, jumped barely in time to save their lives, the wagon being filled with bricks.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui, which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic.

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists.

THE MANAGEMENT OF TOBACCO PLANT BEDS

In view of the fact that many farmers in this section are expecting to grow tobacco for the first time this year, the following comments in connection with some extracts from Circular No. 77, "Management of Plant Beds," by Prof. E. J. Kinney, Kentucky Experimental Station, Lexington, may be of interest to the reader.

The first requirement for the production of a good bed of plants is a rich, fresh plot of soil in sections of Western Kentucky where there is still considerable woodland, the favorite place for making a tobacco bed is in a small clearing in the woodland, where the bed is protected from wind and the soil is of a character to produce the finest plants. Where a plot of new land is not available, an old fence row is frequently used or a good piece of heavy sod ground. Old land is not often used.

The next step in getting good plants in a thorough sterilization of the seed bed. Tobacco plants are so tiny when they make their appearance that they cannot stand much competition from weeds. It is almost impossible to weed a bed badly infested with weeds without doing much damage to the tobacco plants; hence it has been the custom for many years in tobacco sections to sterilize the seed bed by piling brush and some heavy wood on them and burning it, so that the soil will be thoroughly heated down to a depth of two or three inches. This is known as burning the beds. Of course, this burning destroys weed seeds in the surface soil, and also destroys disease germs, an advantage which farmers do not usually recognize.

I prefer logs, poles and brush to brush alone for burning the beds. The logs and poles cut the length it is desired to make the bed wide which should be nine feet, as that has been found to be the most practical. The brush is used to keep the logs and poles burning well. Often just logs and brush are used. The logs should be fifteen inches in diameter and as uniform as possible, as they will then burn evenly. If the logs are of about this size, four to six are put in a heap and thirty or forty feet allowed for one heap to burn over. The logs should be allowed to burn in one place for from 30 minutes to one hour, depending on how well the logs burn. They should then be rolled to a new place and allowed to burn again and so on until the

Sales held anywhere and will sell anything—Veterinary Work in all of its branches.

whole bed is burned over, being careful not to miss any space. A sapling about 10 or 12 feet long with a side root left on makes a good hook with which to roll the burning logs.

After the bed has been burned the ground should be loosened up with a hoe and raked smooth.

Tobacco beds should be seeded just as early in the spring as the ground can be worked. In many seasons it is possible to sow the seed in February. The proper amount of seed is a level teaspoonful per 100 square feet of bed; using more than this is likely to give too thick a stand to produce good, stock plants, and to use much less than this may result in too thin a stand.

To beginners in tobacco growing it is important to emphasize the danger of sowing too much seed. A teaspoonful of tobacco seed over 100 square feet of bed seems very thin to the inexperienced man, but tobacco seeds are very small, and a teaspoonful is ample.

As soon as the seed is sown tobacco cloth should be spread over the bed. It used to be the custom to box beds in, and attach the tobacco cloth to the boards used in making the box. Now, however, the majority of growers simply fasten the tobacco cloth along the edge of the bed with wire pins and seem to get just as good results as where the beds are boxed. After the plants appear, wire loops are made, somewhat resembling a croquet wicket, and stuck in the bed at frequent intervals to keep the tobacco cloth off the plants.

BUYING A MISSIONARY'S TIME

"New I have paid up my pledge to the Presbyterian Church. When I think of how much I have made this year, what I gave wasn't much. I will do more next year."

"This plan of giving to the church a certain proportion, possibly a tenth, appeals to me. I am going to talk it over with my wife. The amount I gave last year figures out to a mighty small sum every week. But at that, the money I did pay bought a foreign missionary's time for a little while—for a few days at least he belonged to me."

"Friend, can't you give 50 cents a week?"

The Presbyterian Church year ends March 31. The board treasurers are endeavoring to have all accounts for every cause paid before the last week of March.

When you are in church, next Sunday think of this message

LO, THE POOR MILLIONAIRE!
Most of us smile cynically when we are told that millionaires have troubles of their own and are inclined to

the worries. This is doubly true when the millionaire is a young idler like the one in "Luck in Pawn", Marguerite Clarke's new Paramount-Artcraft picture which is showing at the Alhambra theatre Monday. But when we see the long line of designing females who are continually setting their caps for him, their eyes on his pocketbook we don't altogether blame him for threatening to live a hermit's life in the desert.

Don't forget the public sale of Jas. M. Pend near Round Hill, on Wednesday, March 24, at 10 a. m. Bargains for everybody.

Would You Lose If Your Property Burned Today?

The destruction of that \$5,000 home you built a few years ago would lose to you the original cost, plus another \$5,000. For it costs \$10,000 now to build the \$5,000 home of 1914.

Likewise the loss of today of the business property that cost \$50,000 before Germany went mad, would be \$100,000—probably \$100,000 would not replace it.

John W. Croke, Resident Agent
Richmond, Kentucky

AUTOMOBILE SECTION

TANKS MOVE BASE HOSPITAL AT FORT BLISS

Tanks hauling one of the buildings of the base hospital at Fort Bliss. The base, which was moved to a location some distance away, is one of the most complete in the United States.

MAN MILLIONS FOR HARD ROADS

Despite the fact that the United States has 7,000,000 motor-driven vehicles in operation—leading the world in this respect—motorists will be surprised to learn that but 12 per cent of roads in this country are surfaced. Out of an estimated total of 2,478,552 miles of public rural roads, only about 299,135 are surfaced or improved.

Indiana shows the greatest percentage of improved roads, 42.5 per cent of its roads being surfaced, based on the last available figures of 1918.

That there is a great need for good roads can be deduced from the increased tendency for long distance hauling by motor truck, and particularly by the fact that 60,000 employees of the United States Postoffice Department travel 1,400,000 miles daily in delivering mail on rural routes.

With an estimated 1920 production of 1,500,000 automobiles, the need for better highways is evident. That this fact is recognized by states and municipalities is shown by estimated appropriations of \$600,000,000 to be spent on hard surfaced roads during the year.

In 1918 approximately 11,944 miles of roads were improved in this country and the enormous sum of \$34,974,000 was spent on maintenance. More than \$20,000,000 have been spent on the 3,320 miles of Lincoln Highway between the Hudson river and San Francisco in the last six years.

To stimulate the interest of both public and states in the value of better roads, The Goodyear Tire and Rubber Company has created a new department to be devoted entirely to this work. It is in charge of C. M. Wood, who is exceptionally well qualified for the work. This department will gather data on the cost of good roads, methods of taxation and other valuable information necessary before legislatures can frame and pass good roads legislation.

So great is the interest of S. A. Seiberling, president of the company and former head of the Lincoln Highway Association, that the Good Roads Bureau will have the aid of all Goodyear salesmen and much educational literature to help create public sentiment toward improvement of all roads in the United States.

How Urbana Got Food

When a community is short of food because of severe weather and lack of transportation, there is but one thought—to get it quickly. Urbana, Ohio, recently suffered a scarcity of meat and when the motor trucks equipped with solid tires and chains were sent to the Westville station to unload many car loads of hogs—They were stalled by heavy roads and icy roads. No progress was made. At this juncture, E. J. Taylor, a proprietor of the Mad River Stock Farm, was called in with his pneumatically equipped truck. Even without chains, his Goodyear all weather tread gave ample traction so that he unloaded the hogs for Urbana's consumption without any trouble, converting many scoffers to the advantages of pneumatics. It is said that the easiest way to a person's affections is through his stomach—if that is so, then pneumatics are forever enshrined in the hearts of Urbanians.

BIG MONEY FOR STATE'S GOOD ROADS

When the State Senate passed Representative Roth's automobile license bill Monday almost without change, legislative action to finance the state highway system project was virtually completed. Joe S. Boggs, State Road Commissioner, has estimated that shortage of materials, of labor and expert engineers, and necessity of making preliminary plans will limit the amount which can possibly be spent on the project to \$6,000,000 a year during the next two years.

The legislature has provided a sum of approximately \$5,000,000 a year for the next two years. The automobile license tax is expected to bring in \$1,750,000 a year, according to the estimate of Senator Whit Moss, author of the bill establishing the state highway system.

The tax of one cent a gallon used in motor vehicles will bring in about \$500,000 a year. The bill imposing this tax has already been passed by both houses.

It is impossible to estimate the amount which the tax of 50 cents a gallon on whisky will bring in each year. The Vance bill carrying the whisky tax, passed both houses by large majorities.

Eventually this will bring in \$17,000,000 from the 34,000,000 gallons of whisky in Kentucky bonded warehouses, but the amount each year will depend on the rate at which it is withdrawn. At the very least this tax will add to the road fund \$500,000 a year. The whisky tax revenue is divided 75 per cent to the road fund and 25 per cent to the general fund.

The estimate of \$500,000 a year from this source is very conservative. There is also the possibility that the entire amount of this tax, \$17,000,000 may be made available at once. An agitation has been started by prohibition leaders and approved by passage of a resolution by the Kentucky legislature urging the United States government to take over all whisky now in bonded warehouses. This, however, is a matter of speculation until the United States government has taken

GRANT SIX

Other People's Comments

One man says, "I never saw a car of the same wheelbase that is so easily handled. It turns in small space and steers with remarkable ease."

"The clutch engages and disengages so easily and the brakes are so gentle and yet so positive that even a 70-pound woman can operate it without effort," says another.

"I never sat in a more comfortable car, and even at speeds over 25 miles, it runs along so smoothly and with so little effort that one needs to keep his eye on the speedometer. 2200 miles already driven around the state have convinced me that you are

producing the easiest riding, easiest handled light six in the world."

These remarks are not surprising to us, for the Grant Six is not only an unusually good looking car—it is unusually fine mechanically and it is built to last as well as to serve.

Come and see it at your convenience. Only 20,000 of these fine cars will be built. We suggest early orders.

Five-passenger Touring Car, \$1595; Three-passenger Roadster, \$1595;
Five-passenger Sedan, \$2450; Four-passenger Coupe, \$2450.

COAL AND FEED PHONE 28

WEEK'S WEATHER GUESS Predictions for the Ohio Valley—Fairly middle of the week. Nearly Washington—Week's weather pre-early and clouding days; rain probable. Normal temperatures.

CHEAP FERTILIZERS GROW THE CHEAP CROPS

With bright leaf bringing around \$1.00 a pound and in brisk demand, low grade tobacco is selling on many floors at from 1 cent to 3 cents away below the cost of production. There is enough low grade tobacco to last a couple of years and now is the time to plant for a quality crop. Produce the bumper crop with

"GLOBE FERTILIZER"

SOLUBLE POTASH—will give the leaf good color and fine texture.
NITROGEN—properly graduated, will make hardy healthy plants, a long leaf and a big spread.
RICHLY AVAILABLE PHOSPHORUS—the crop making material to growth, color, texture and maturity; the best material on the market for grain growing.
For 25 years we made corn and tobacco fertilizers for Kentucky Farmers. Year after year we have put in the bag the largest amount of actual available "PLANT FOOD" in the best mechanical condition for the least amount of money.
A cheap price is no indication of a good fertilizer bargain, or good results in crops, Globe Fertilizer is the standard of known value.
Buy the best and safest Fertilizers from.

Master Lucien Tribble and sister, Miss Minnie Mae Tribble, are sick with flu.

Mr. Henry White died at his home on Culloway Creek, March 10th. He had been a faithful member of the M. E. church for 48 years. He leaves a wife, six sons, six daughters, one sister, one brother. He was also a member of New Tane lodge of Odd Fellows of Richmond. Funeral services held on March 12th, conducted by Reverends Brown, Thompson, Smith and Jones.

Miss Sarah B. Bush died at her home on Estell avenue on March 12th. Funeral services held at the 1st Baptist church on March 14th, conducted by Rev. J. W. Broadbush.

I want to thank the friends of First street and B. street for their kindness shown me during the illness and death of my husband, Mr. Henry Beasley, Rev. J. W. Broadbush for his consoling words, the choir for their kindness, also white and colored, who were so kind in their floral offering, Mrs. B. E. Belue.

Mrs. Caylor, Mrs. D. Clay, Mrs. R. Clay, Mrs. R. Tribble. Mrs. Mattie Beasley.

Rev. Smith, pastor of the East End M. E. church is conducting a revival, being assisted by Miss Bertha Davis. The public are invited to come and

hear the great woman. Sara Belle Bush died March 12th. She is survived by her mother, father, two sisters, and two brothers. She was eighteen years old and will be sadly missed by her companions and friends.

A Square Deal Gets The Goods

If you don't believe it, come to my produce house and watch the people bringing produce to me. My place is the busiest produce house in Richmond. Old customers come back every time they have anything in my line to sell, for they know that I give honest weight and count, top prices and courteous treatment and that's a combination that all other dealers try to beat but they can't do it. I am getting new customers every day. If you have anything in my line to sell—
FOLLOW THE CROWD TO—

FOR SALE

I have in my hands for immediate sale the farm of Mr. George W. Young, at Kingston, containing

192.86 ACRES

This farm is on the Dixie Highway, is well improved, having a fine dwelling, stock barn, garage, and all necessary outbuildings.

147 Acres in Blue Grass Sod

which has not been plowed since the Civil War and the balance is in small grain and young grass.
This farm is in a high state of cultivation—ready to produce; has plenty of stock water, and if anyone wants a home, the price is right.
